

Hello

5G Test Network Finland is open innovation ecosystem for 5G and beyond technology and service development. It includes beyond state-of-the-art technologies and support development of vertical trials for their real operational environments, more details in [www.5gtnf.fi](http://www.5gtnf.fi).

You are invited to 5GTNF demo seminar on 15.11.2018 at [Aalto University \(A-grid\), Otakaari 5 A, 02150 Espoo](#) or at [VTT Technical Research Centre of Finland Ltd, Kaitoväylä 1, 90571 Oulu](#).

The goal of the event is to share information about key results and demos, distribute information about 5GTNF utilization possibilities and inform future targets.

[Please register here](#) no later than **8 November**. The event is free of charge.

#### **Program:**

09.00 – 09.15: Opening and introduction to BF strategy and programs (Business Finland)

09.15 – 09.30: 5GTNF results and plans overview (VTT)

09.30 – 12.00: Key results and demos, utilization possibilities (project managers)

- 5G Test Network – 5GTN, [www.5gtn.fi](http://www.5gtn.fi)
- Critical Operations over Regular Networks – CORNET, [www.oulu.fi/cornet/](http://www.oulu.fi/cornet/)
- Wireless for Verticals – WIVE, <https://wive.turkuamk.fi/>
- Ultra-Reliable Low Latency Communications for Industrial Internet, Manufacturing and Automation - TAKE-5G, <https://take-5g.org/>
- Building key enablers for a Digital Smart City - LuxTurrim5G, <https://www.luxturrim5g.com/>
- Intelligent 3D measurements, analysis and automation for 5G beamforming solutions using Unmanned Aircraft System - IMAGE 5G, <https://tki.centria.fi/hanke/image-5g/1296>

12.00- 13.00: Lunch

13.00 – 16.00: Demo session

Welcome to 5GTNF demo seminar!
